

## It Takes A Village Community Partnership

Carrie Woodyard, CIS of Atlanta Program Coordinator, Rita Paschal, Assistance League of Atlanta

The Assistance League of Atlanta has partnered with several of our schools through Operation School Bell. This program provides needed clothing for elementary school students. Each identified student receives new clothing selected and packaged specifically for him or her. Due to the fact that their services are so desperately needed they currently have a waiting list of schools desiring their services. Not only do they come with clothing, they always come with a friendly smile and a great appreciation for the work that we do.
